Art Unit: 2834

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to show thicknesses of alternating high and low impedances layers wherein one layer is set different from a quarter of the acoustic wavelength and the thickness of the other layer is set dependent from the one layer, wherein the thickness of the one layer is decreased relative to the quarter of the wavelength while the thickness of the other layer is increased relative to the quarter of the wavelength.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art shows the state of the art.

Direct inquiry to Examiner Dougherty at (571) 272-2022.
